 - Sole Developer
 - React.js, MongoDB, JavaScript, HTML, CSS
 - <https://google-books-search-9.herokuapp.com/>
-

EXPERIENCE

Actuarial Analyst, Wespath Benefits and Investments, Glenview, IL 2014 – Present

- Redesign and recode data validation process and queries which cut the processing time by 75% while also eliminating errors from manual processing and discovered new ways to build queries with SQL and VBScript
- Review all valuation components including data, assets, liabilities and deliverables
- Evaluate valuation programming in ProVal software and gain/loss analysis, providing insight and improvement solutions as lead analyst
- Manage valuation projects including setting up workflows and ensuring timing of deliverables
- Project manage client funding plans, managing the approval and implementation of all

enhancements through agile methodology and ensuring 100% completed on time, giving me a great platform to enhance my project management skills

- Coach and mentor less experienced staff, enabling me to share my knowledge with others while also gaining leadership skills

Actuarial Assistant, Wespath Benefits and Investments, Glenview, IL 2007 – 2014

- Analyzed funding models for valuations, taking on the initiative of the development method
- Compiled, edited, validated and analyzed demographic data for 12 different plan valuations
- Programmed and executed valuations in ProVal, learning the syntax through software documentation and reducing future errors by passing variables through data defaults
- Developed assumption study by grouping and analyzing historical data and establish recommendations for report to senior leadership, giving credibility to the service that we provide to our customers
